

■ Hey, it's  
**Rusmi Ramli**  
**Soewignjo**

CREATED USING  
**POWTOON**

 As you know,  
I just finished my  
**research project on:**

# A Collaborative Approach between SLPs and Paraprofessionals on Data Collection

CREATED USING  
**POWTOON**

Here are my

main discussion  
points

# 1 Pre-Survey

## Surveys

To assess perspective of paraprofessionals

## Results

90% responded  
60% eager to learn about collecting data

## Perspective

Use and collect data, but no training

## ② Data Tracking

# 3 Post-Survey

Participants found the "Data Tracking" training useful.

Participants suggested that specific training is required.

Participants agreed that the collaboration can lead to improved skills of students.

Participants acknowledged the benefits of collaboration given time.

# 4

## Results and Discussion

### MOTIVATION

- indirectly motivated by the students' progress and usage of communication skills.

01

02

### COLLABORATION

- transdisciplinary approach
- increase support

### CHALLENGE

- reliability of recorded data
- continuous monitoring of reinforcement effort.

03

04

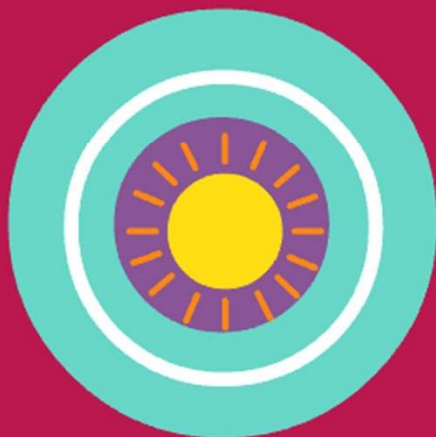

### DISCREPANCY

- what expected to be delivered
- what is done

# 5) NEXT STEP

## Generalization of skills

- continuous data monitoring
- effective application
- "Train the trainers" model

## Data form design

- paraprofessionals involvement
- suitable for the needs

## Validity of data

- ongoing shared data collection

■ I will be using these findings to **INCREASE AWARENESS OF TRANSDISCIPLINARY APPROACH**

***THANK YOU***

for all your  
support

***THANK YOU***

the best is  
yet to come
